# Invoice Review: Service Certification

Whether you filed a BEAR or your Service Provider discounted your bills and filed a SPI, USAC may conduct manual reviews that require additional documentation to demonstrate:

- The applicant paid their **non-discounted** costs.
- The invoiced equipment or services were **delivered** and/or **installed**.
- USAC validates the documents to ensure the requested amount is for eligible equipment and or services.

USAC reviewers may send questions to the applicant or service provider with a response due by the "response requirement date."

Applicant and service provider should be **timely in responding to outreach**, as failure to respond may result in the invoice being **denied**.

**Only an applicant with full user rights can complete the certification and return it directly to USAC.**

***Updates & Where Are You  
At In The Process***

# Off-Premises Wi-Fi Hotspots Are No Longer E-Rate Eligible for FY2025

- On Sept. 30, 2025, the FCC overturned the previously adopted Report and Order (FCC 24-76), which made **Wi-Fi hotspots and mobile wireless Internet services for off-premises use** eligible for E-Rate program support.
- The Commission clarified that providing Wi-Fi or similar technologies outside of traditional school and library premises does not fall within the scope of the E-Rate program.
- Based on this decision, the FCC has released an amended FY2025 Eligible Services List, removing Wi-Fi services for school buses and hotspots as eligible services.
- **This does not apply to hotspots used for bookmobiles or kiosks!**

# Off-Premises Wi-Fi Hotspots Cont.

- Any existing funding requests in the E-Rate system will be denied automatically by USAC in the near future.
- The timing of and manner of those denials are TBD, but you should prepare for them now.
- You should re-read your contracts to see how the vendor addressed termination or alteration of the E-Rate program in their terms.
- Per the [OPLIN Form 470 RFP](#), vendors were supposed to "Provide details for optional continuation or termination of the contract, in the event that the FCC Off-premises Wi-Fi Hotspot Program is either terminated or significantly altered before June 30, 2028."
- You should reach out to your vendor now if you need to change the quantities of devices or service lines, based on the elimination of E-Rate funding.

If you've had a post-commitment change request (SPIN changes, service substitutions, appeals) or a BEAR form pending for more than 60 days, use the "Contact Us" feature in EPC to request that it be escalated.

# FY2025 FCDLs – Has Everything Been Funded

- If your Form 471 applications have not been funded
  - What is the current PIA status? Very important to verify that!
  - Let me know if no PIA contact has been received in the last 3 weeks
- If you've received the FCDL, were there unexpected denials?
  - Remember, you have 60 days from the date of the FCDL to file an appeal!

## FY2025 Form 486s

- If you have been funded for FY 2025, file your Form 486 to “turn on funding” and certify CIPA compliance
  - **For internal connections, file 486 now (don't wait)**
- You must wait until you receive an FCDL to file the 486
- Deadline is 120 days after FCDL date or October 29, whichever is later
  - Normally Oct 29
- VERY easy form to file in EPC (no data entry)
  - Guide at: <https://www.ohio-k12.help/E-Rate-support/resource-library/>
  - **Be careful when clicking on CIPA certifications**

***Preparing For FY 2026***

***(July 1, 2026 – June 30, 2027)***

***And, What's New***

# FY 2026 “Admin Window”

- Admin Window is 2-3 months *before* the Form 471 window when schools and libraries update their school or library profiles in EPC portal
  - It opens on October 15. It usually closes two days before the Form 471 filing window opens in January (we don’t have the dates yet!). This data is then ported over into the Form 471
- **Mainly used to update:**
  - **E-Rate Discounts:** Must update school profiles with current enrollment/NSLP data to calculate E-Rate discounts for the upcoming year
  - Confirm all entities, including NIFs, are in the EPC portal
  - **Category 2 Budgets:** Update square footage changes (libraries)
  - Square footage is needed per library location to calculate the new Cat 2 budget

>>> EPC Landing Page > Library Name > Manage Organization > Scroll to the bottom of the page to see the Category 2 Budget field. Enter the correct square footage and submit. You’ll be asked to enter a nickname for the change. Repeat for each library in the library system that needs to be updated.

# Current Basic Maintenance (BMIC) Definition

- Basic Maintenance of Internal Connections is the **repair and upkeep of eligible internal connections.**
- The two types of Basic Maintenance Internal Connections are:
  - **In-Person Services**, which include on-site repairs (Time and Material Contracts)
  - **Remote Services**, which include Maintenance Support Services (such as basic technical support, configuration changes, bug fixes, patches, software upgrades, support service subscription licenses, technical support licenses)
- The equipment being maintained must be eligible in order for the maintenance to be eligible for E-Rate support.
  - If repair or replacement work is performed under a maintenance contract, USAC only reimburses for the **actual work performed.**
- Can only be for services/work performed during 12-month funding year (7/1/2026 – 6/30/2027)
  - Does **not** follow the 4/1/2026 – 9/30/2027 schedule

# Draft FY2026 Eligible Services List (ESL)

The FCC has released the draft version of the FY2026 ESL and is seeking comments on proposed modifications, such as **how eligible software and other remote configuration services are categorized in the ESL.**

- This has been an issue when there is mixed Internal Connections (IC) & Basic Maintenance of Internal Connection (BMIC) functionality.
- Under current rules, items that include support, such as most equipment **license renewals**, which include both **right-to-use license** and **support**, allowing for remote-based services such as software upgrades and patches, bug fixes, security patches, and online and telephone-based technical assistance. **The item must be funded under BMIC.**
- For multi-year subscription renewals, which are treated as a multi-year contract, a pro-rata allocation of the cost is required. This means a funding request must be submitted for each funding year on the Form 471 for the annual amount, even when the full multi-year cost is paid to the service provider upfront. **Example: A 5-year renewal for a total cost of \$10,000; you can only ask for \$2,000 each year.**

# Draft FY2026 ESL...Continued

Also, in previous funding years, USAC has recommended that you seek bids under both **IC and BMIC** when filing the Form 470 for license renewals, since you may not be sure where the licenses fit at that point. **This has caused tremendous confusion.**

- To alleviate this confusion, the FCC proposes to include software-based services, including bug fixes, security patches, software-based technical assistance, and configuration changes under **Internal Connections!!**
  - If approved, this would mean no more listing license renewals under both IC and BMIC on the Form 470, **but most importantly**, when paying for a multi-year subscription renewal upfront, you can receive reimbursement in year one!
- **Fixed maintenance contracts** (on-site configuration changes, and time and materials) will continue to be eligible for funding under BMIC, but only for the work that is actually performed under the contract.

# Draft FY2026 ESL...Continued

The FCC also seeks comment on whether changes should be made regarding managed internal broadband services (**MIBS**). When originally adopted, the FCC noted that MIBS could “provide substantial benefits and cost savings to many schools and libraries, particularly small districts and libraries without a dedicated technology director available to deploy and manage advanced [local area networks] quickly and efficiently.”

- They stated that applicants have been confused regarding the eligibility of these services and how MIBS differ from BMIC services, so they’re asking the following questions:
  - **Are there any substantial benefits for funding MIBS?** If so, describe the benefits.
  - **Are there any cost savings and efficiencies for funding MIBS?** If so, describe the cost savings, providing information on the applicants who see the greatest benefits from MIBS.

# Draft FY2026 ESL ...Continued

- Should MIBS be more narrowly defined so there is no overlap with BMIC services? If so, comment on what items should be included or excluded from MIBS.
- How can we provide greater clarity in differentiating between MIBS and BMIC services in the ESL?
- Should these changes be made for the current funding year or for future funding years?

**Initial comments regarding all proposed changes must be filed on or before October 15, 2025.**

**Reply comments (stating approval or disagreement with initial comments made) are due on or before October 30, 2025.**

# E-Rate Simplification – Covered Last Year, But Bears Repeating!

- **10% Internet Access Hold Harmless**
  - Up to 10% can be used for ineligible purposes
  - Important for schools with ineligible Pre-K students and CTCs that provide adult ed classes
  - Other usage during the school day
  - Applicants may seek E-Rate funding for **only** the amount of bandwidth needed for eligible use
- **Library Bidding Exemption**
  - **Libraries (only)** are exempt from bidding **Category 2** equipment or services if:
    - The total pre-discount amount is \$3,600 or less
    - Total cost is per library and cannot be averaged over multiple libraries
    - Cost-effective rules still apply
    - Contracts still must be signed prior to filing the Form 471

# CABIO Internet Bidding Exemption

## Commercially Available Bundled Internet Option (CABIO)

- Schools and libraries seeking “Commercially-Available Business Class Internet Services” are not required to file a Form 470
- Typically, only Cable-Modem, DSL, or FIOS Internet Service
- Commercially Available means that it is publicly available to non-residential customers (such as enterprise, small business, or other government customers) in the same form and at the same rates that it is offered to schools or libraries
  - Basically, this is an internet service that is available on a vendor’s website for its business customers
- Minimum speeds must be 100 Mbps downstream and 10 Mbps upstream
- Cost must be \$3,600 or less annually (pre-discount)
  - Cost must be per-building and cannot be averaged across multiple buildings
  - \$3,600 includes any installation costs, equipment rental, taxes and fees

The CABIO option is geared (but not limited) to small libraries and small non-public schools or NIFs using cable modem-type services

# E-Rate Simplification...Continued

## Repeal of C2 NIF Cost Allocation Requirement for Shared Equipment:

- Applicants are not required to cost-allocate the non-instructional facility (NIF) usage of a shared piece of equipment in a NIF.
  - Such as a library's switch or wireless controller located in an administrative building or data center.
  - Unfortunately, C2 equipment that is solely used by the NIF will continue to be ineligible (for example, WAPs in admin buildings)

## Full Eligibility for Data Network Cabling:

- The FCC clarified that structured cabling in a school or library may be connected to ineligible equipment such as security cameras, voice equipment, smoke detectors, etc.
  - If the network primarily served an eligible purpose (i.e., distributing broadband throughout a school or library building), the full cost of the cabling is eligible.
  - **However, networks that are dedicated to an ineligible purpose, such as security networks or voice networks, remain ineligible**

# Off-Premises Wi-Fi Hotspots Will Not Be Eligible for FY2026

- Based on the decision, amending the FY2025 Eligible Services List to remove Wi-Fi services for school buses and hotspots as eligible services, the items will not be eligible moving forward into FY2026.
- The FY2026 version of the Form 470 has not been updated yet to remove the services. We are not sure when that will be completed.

# New Category 2 Budgets

# New 5-Year Category Two (C2) Budget Cycle

FY 2026 will be the first year of the FY 2026-2030 funding cycle.

- Unused funds from the FY 2021 – 2025 Category Two (C2) budget will not roll over to the FY 2026 – 2030 funding cycle.
- The E-Rate C2 Budget Tool FY2021+ provides data on the FY 2021-2025 C2 budget cycle.
  - The tool will be updated to show C2 budget forecast data for the FY 2026-2030 C2 budget cycle.
- Applicants will be required to validate their student counts or library square footage **in the first year they apply for C2 support** during the FY2026-2030 cycle.
- The C2 budget is calculated at the library system level based on the combined square footage.
- **To qualify for Category 2 funding, you must be CIPA-compliant**

# FY2026-2030 C2 Budget Cycle Updates

## FY2021-2025 C2 Budget Cycle

### Libraries

- \$4.50/square foot
- \$25,000 funding floor
- Tribal libraries were eligible for up to \$55,000

### Schools

- \$167/student
- \$25,000 funding floor

## FY 2026-2030 C2 Budget Cycle

### Libraries

- **\$5.43/square foot**
- **\$30,175 funding floor**
  - This means a library **with less than 5,558 square feet** ( $\$5.43/\text{square foot} * 5,557 \text{ square feet} = \$30,174.51$ ) receives the funding floor of \$30,175.

### Schools

- \$201.57/student
- \$30,175.00 funding floor
  - This means a school with fewer than 150 students ( $\$201.57/\text{student} * 149 \text{ students} = \$30,033.93$ ) receives the funding floor of \$30,175.

# Calculating Your Budget – OPTIONS

The Category 2 Order **provides an exception for small school districts and library systems.**

- Specifically, it allows school districts and library systems with 10 or fewer sites the option to calculate their budgets on a per-site basis by **adding together** the budgets of each eligible site within the district.

Library	Sq. Ft.	Budget Calculation (\$5.43/sq. ft.)	Budget Received (Use the minimum budget if the calculation is less)	
Central Main Branch	14,500	\$78,735.00	\$78,735.00	Based on sq. ft. count
East Branch	8,000	\$43,440.00	\$43,440.00	
North Branch	9,873	\$53,610.39	\$53,610.39	
West Branch	5000	\$27,150.00	\$30,175.00	Based on the budget floor
ABC Bookmobile	256	\$1,390.08	\$30,175.00	
<b>Totals</b>	37,629	\$204,325.47	\$236,135.39	

**!! If applying for Category 2 funding, provide square footage for all library locations, even Bookmobiles & Kiosks!!**

# Establishing Your New C2 Budget

- Update your entity profile in EPC during the Administrative Window
- **Forecast Budget:** Beginning in the FY2026- 2030 budget cycle, all entities will have a Forecast budget status based on the information in their EPC profile. This means that any updates you make to the entity profile will automatically reflect in an updated budget amount, without the need to request a replacement budget.
- **Preliminary Budget:** The entity has **certified** a Form 471 application within the FY2026-2030 C2 budget cycle. This means that the entity has certified the accuracy of the budget data currently in the entity profile.
- **Confirmed Budget:** Once Program Integrity Assurance (PIA) review of FY2026-2030 C2 Form 471 application is **complete**. The C2 budget in the entity profile is now **fixed**. It can only be changed via an Appeal for the current FY. Beginning in FY2027, the entity can request a replacement C2 budget if the square footage has increased for the next year.

# Category 2 Pre-Discount Budget Example

5-Year C2 Budget Cap*	E-Rate Discount	E-Rate Will Pay:	District's Share %	District Must Pay:
\$204,475	60%	\$122,685	40%	\$81,790

\* The C2 Budget Cap is the **pre-discount price**. E-Rate discounts will then apply **on top of** the budget cap. In this example, the applicant would still owe its 40% non-discounted share

# Portal Access – Add Text MFA Option

The screenshot shows the Universal Service Administrative Co. portal dashboard. At the top left is the logo and name. At the top right is a 'Sign Out' button. Below the header is a 'Dashboard' section. On the right side, there is a user profile area with the email 'lorrie.germann@gmail.com' and a 'Settings' link. A red box highlights the 'Settings' link. A red arrow points from the 'Settings' link to a modal dialog box titled 'Extra Verification'. The dialog box contains the text: 'Extra verification increases your account security when signing in to Okta and other applications you use.' Below this text is a 'Text Message Code' label and a 'Setup' button with a wrench icon.

After initially logging in, but before clicking on “EPC”, click on the pull-down to the right of your username to see “Settings”. Scroll down to see “Extra Verification” and click on “Setup”. Provide your phone number and enter the code you’ll receive on your phone, then “Verify”, and “Done”.

  - Services may not BEGIN until July 1
- C2 equipment (falls under IC) has an 18-month window to purchase/install equipment
  - May be purchased/installed anytime after **April 1** (3 months before funding year begins)
  - Equipment must be purchased and installed by **September 30** (3 months after funding year is complete)

FY2026 - Non-Recurring Services/Equipment Purchases - April 1, 2026 - Sept 30, 2027

# When Must a Form 470 be Posted?

## 1. Month-to-Month Services

- No contract exists – these are mostly cable modem-type services, or hotspots for a library's bookmobile
- File annually **unless using CABIO**

## 2. New Contracts (new C1 or C2 services or current contract will expire 6/30/2026)

- File before signing any new contract
- If you posted a Form 470 in a previous year, and then signed a multi-year contract that expires on or after June 30, 2027, you are **not** required to file a Form 470 for FY 2026
- **A Form 470 is not needed if using the Library C2 Bidding Exemption**

## 3. Bandwidth Upgrades

- If you're upgrading service mid-contract and the upgrades and associated prices are not included in the original contract

### Contract Extensions:

- Permitted but must have been in original contract and must have definitive end date
  - For example, a 3-year contract, with two 1-year renewals. Will not require new 470 until the end of 5 years
- Must notify the vendor before filing Form 471 if you want to exercise one of your contract extensions
  - Can be as simple as an e-mail; some vendors want contract amendment
  - USAC will ask for this during your application review

# When to File the Form 470

**Deadline:** Form 470 must be posted online at least 29 days before the close of the Form 471 window

For example:

- If Form 471 deadline is March 25, 2026; then...
- February 25, 2026 = 470 Deadline
  - DO NOT wait this long!
  - Gives you 1 day to evaluate bids, negotiate contracts, seek board approval, sign contracts, and then file the Form 471 by the 471 deadline
- **If you need to file a Form 470, plan on attending Form 470 training!!!!**

- This is the earliest you can select a vendor.<sup>1</sup>
- You can wait up until you certify FCC Form 471 to select a vendor.<sup>2</sup>

## Remember

If the 470 narrative or RFP does not include a bid submission deadline

then applicants are **required** to accept all bids up until they conduct their bid evaluation.

<sup>1</sup> This may vary based on state and local procurement rules.

<sup>2</sup> You must select a vendor before the filing window closes.
